

# MINERSREALM

ABOUT THE SERVER. LAST UPDATED 30TH OCTOBER 2017.

## ABOUT

Survival, Creative and more! Originally released as a survival server back in late 2014 and revamped in mid-2016 to add creative and survival games servers, MinersRealm is now a multi-server network consisting of survival, creative and minigame servers.

On our survival and creative servers, you can claim your own land to stop others from destroying your buildings and invite others to help you build - aside from the ability to claim land we aim to modify the vanilla survival experience as little as possible. We run AAC (advanced anti-cheat) on all our servers to ensure all game modes are fair and equal. We aim to provide a fun server for all ages and our dedicated team are always on hand to help you with any problems or question you may have.
